

CAMP “LEVELS”

Swimmers are grouped based off of current skill level. This does mean that siblings and friends may not always be able to swim together during their camp lessons but will still have plenty of opportunities to be together during recreational swim times and in and out of water activities.

Each week, you can expect your swimmer to come home with a sticker page that details:

- What level they are in (Little Pikes 1, 2, or 3)
- Where they are at in progressing toward mastering each skill within their current level
- What water safety lessons they participated in
- Who their instructors were

Note that your swimmer may swim with multiple instructors throughout the week. This allows swimmers to benefit from multiple instruction styles and work with instructors whose strengths are in alignment with your swimmer's level.
